# VISION

Be a pioneer in Leadership training and development and develop the skills of leadership in each individual and make them a better version of themselves.

# MISSION

To identify, nurture, develop and inculcate Leadership qualities in one and all.

# FOUNDER'S MESSAGE

**Leaders aren't born. They are groomed.**

▶ Leadership is about working with people to do new things in a world which is increasingly complex and fast changing. We need organizations that are flexible and sustainable, and organizations are made up of individuals. Leadership is not necessarily linked to authority. It is about mobilizing people to tackle the toughest problems and to do their best work. Leadership is embedded in every one of us, but the key is to unlock our personal passion which will give us the courage to do things that appear difficult, uncertain or even unpopular.

Leadership is all about breaking barriers. Leadership helps people to act with freedom and independence. Leadership encourages and stimulates action from workers by innovating them in planning and decision making activities. Good leadership is essential to business, to Government and to the numerous groups and organizations that shape the way we live, work and play.
