

PRIME YOUR FUTURE

CoRE PRIMES TO BUILD
LEADERSHIP SKILLS FOR EVERYONE,
EVERYWHERE.

www.coreinc.in

VISION

Be a pioneer in Leadership training and development and develop the skills of leadership in each individual and make them a better version of themselves.

MISSION

To identify, nurture, develop and inculcate Leadership qualities in one and all.

FOUNDER'S MESSAGE

“Leadership is only about creating more leaders”

Leadership is about rallying a group of people for a cause that is worthy and pure. In this increasingly complex and fast changing world, we need leaders who have the courage to dream a world that is unlike the times we are living in. The current paradigm of leadership which traces its origin to industrial advancement during and after World War II is more about numbers, resources and the bottom line. In this process, individuals are reduced to mere figures in the footnotes of history. The current crisis in leadership across sectors- business, politics, civil service organizations, households - reflects the way leadership is perceived and exhibited.

CoRE dares to reimagine a world where leadership at its essence is all about authenticity, service orientation and selflessness. This new breed of leaders would rally people and create more leaders in the areas they serve. To create this new leadership, we need to unlock their personal passion and purpose whereby they get the courage to do things that appear difficult, uncertain or even unpopular.

Come, let's reimagine our world and its leadership. We wish to serve you to make it happen!

Mr. Annamalai.K., IPS (Retd.)
Founder & Chief Mentor

Leadership Matters - For everyone

Know Me

Know We

Know the
Habitat

Current offerings

- ▶ **“CORE Me+” - an outbound experiential learning programme**

KNOW ME

This fast-paced world with its added charm brings together a slew of distractions.

Leadership in this world is not about leading others but importantly developing the sense of leading oneself.

As the saying goes, “If you don’t know you, then you don’t know anything”. We help you achieve that inner balance by enabling you to look deep within and launch you in a trajectory with your unique signature.

KNOW WE

- ▶ **Do we really know our people?**
- ▶ **Do we know what motivates us?**
- ▶ **What holds our people back?**
- ▶ **What is the collective innermost fear?**
- ▶ **Can you be the best version of yourselves?**

We enable you build super teams

Great organizations are built around extraordinary teams. A team creates magic when it goes that extra mile to get the job done.

- ▶ Like the Union army of 1862 under the inspiring **Abraham Lincoln**
- ▶ Like the **Sir Ernest Shackleton's** band of brothers who dared to survive in Antarctic cold for 497 days in a sinking ship with only hope for company
- ▶ Like **Steve Jobs'** team that continues to reimagine our future and deliver it.
- ▶ Like **Barack Obama's** team who did the impossible by bringing morality into our everyday politics.

KNOW THE HABITAT

- ▶ All of us are shaped by the environment we live in. Environment often stand between the team and what it wants to achieve.
- ▶ We help you to fit into your environment and use that as your strategic advantage.
- ▶ Also, we help you to set a bad environment - including a toxic culture, me vs them attitude, non-entrepreneurial, inward looking teams - RIGHT!

“CORE Me+” - an outbound experiential learning programme

This outbound experiential learning programme (referred as CoRE Me+) is designed to enhance the participant’s leadership skills and personality through self-realization and actualization in a challenging rigorous outdoor environment which will test your leadership qualities.

The Programme shall also be an introduction for under-graduate & post graduate students to the exciting world of sustainable capacity. Outbound sessions are an often used term that at once seems exciting, mysterious and forbidden. This course intends to demystify it and give students a glimpse of the science and process behind it.

- To acquaint and make students of your institutions fully aware of the emotional intelligence expectations from students and build their strategic advancement instincts.
- To empower career potential of students at your institution.
- To bridge the skill gaps and make your institution students charismatic – a personal magic of leadership.
- To provide an opportunity to students of your institution to develop interdisciplinary skills.

Highlights:

- Experiential Learning Cycle (ELC) as Adventure is a way of doing things.
- Learning by Doing
- Result driven approach
- Real time experience

DURATION: 5 Days 4 Nights
